

## Pair it with your phone

Before you use your Jabra JX10, you need to pair it with your mobile phone.

**1. Put the headset in pairing mode**

- Make sure the headset is on.
- **Press** the pairing button marked  until the blue light (LED) turns solid blue.

**2. Set your Bluetooth phone to 'discover' the Jabra JX10**

Follow your phone's instruction guide. This usually involves going to a 'setup,' 'connect' or 'Bluetooth' menu **on your phone** and selecting the option to 'discover' or 'add' a Bluetooth device. \* *(See example from a typical mobile phone in fig. 6).*

**3. Your phone will find the Jabra JX10**

Your phone then asks if you want to pair with it. Accept by pressing 'Yes' or 'OK' on the phone and confirm with the **passkey or PIN = 0000 (4 zeros)**.

Your phone will confirm when pairing is complete. In case of unsuccessful pairing, repeat steps 1 to 3.
